

Feasible-direction screen: projection does not extend the recoverable prefix

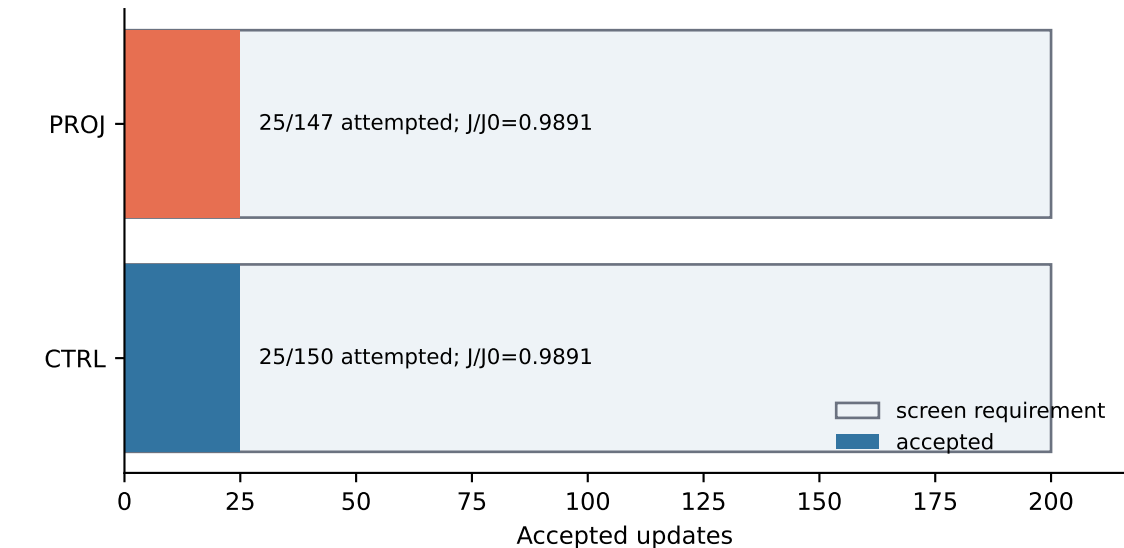

A. Thermal geometry motivates projection

B. Proposal ladder and repeated blocker

C. Same 25-step safe prefix, no extension

D. Frozen evidence ladder

Local safe descent	YES
Extended feasible path	NO
PROJ increment over CTRL	NO
Full refinement	NOT RUN: prerequisite
PINN Pareto / candidate	NONE

PROJ uses medium-derived competence gradients; it is not label-free.
