

Q0 intent 1: actual zero-drive H5 traces and guard report

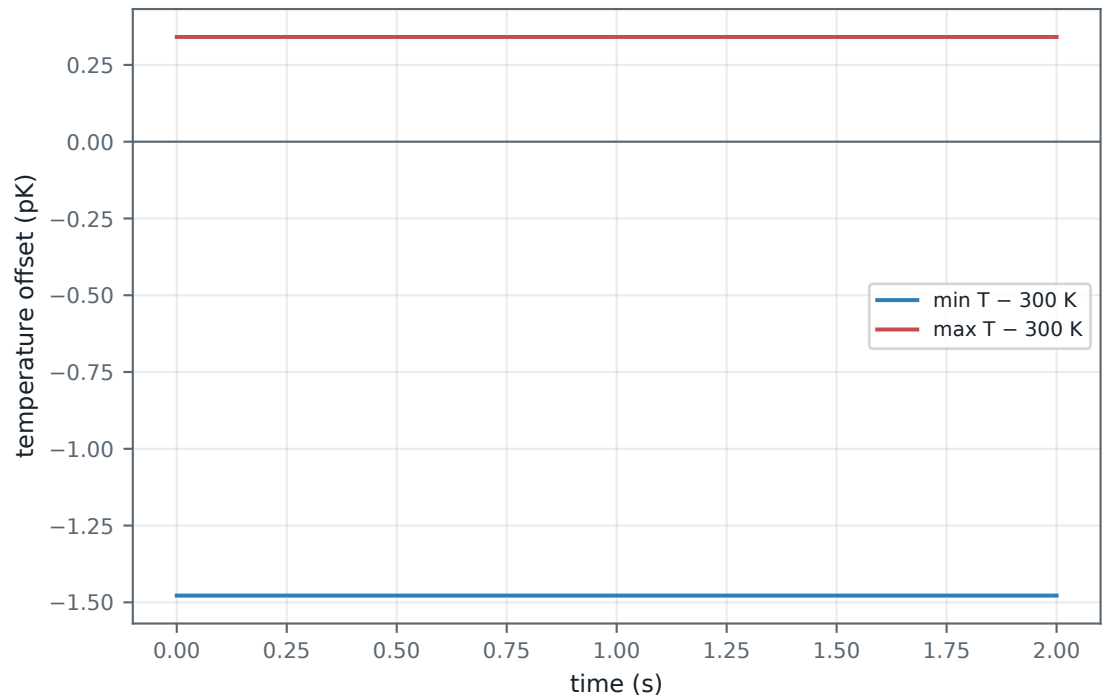

a Applied drive and terminal currents

b State bounds and exact mass conservation

c Floating-point-scale temperature offsets

d Frozen guard summary

Hard guards	PASS
mass drift	0.0e+00
no-flux residual	0.0e+00
heat-balance residual	0.0e+00
terminal mismatch	0.0e+00
y range	0.5 - 0.5
T range (K)	299.999999999999 - 300
event evaluation	N/A for Q0

Zero-drive guard verification only — not driven-event or oracle qualification
